

## **TRI-COUNTY PROCEDURES FOR DEFERRED SUBMITTALS**

(for commercial projects)

The purpose of this document is to provide a standard procedure for deferred submittals. Applicants who wish to defer items should work with the building departments to:

1. Schedule a pre-submittal conference to discuss proposed deferred submittal items.
2. At the pre-submittal conference, define the deferred submittal schedule. Make sure that includes review time for approval.
3. List deferred submittal items on the title or cover sheet of the original plan when application is made.
4. State the design criteria/assumptions of the deferred submittal items on the plans.
5. As the deferred item documents and drawings are prepared for plan review, ensure that the deferred submittal documents are reviewed by the architect or engineer of record to verify that the items comply with the general design of the building.
6. Deferred submittal documents and drawings must be submitted and approved prior to the construction/installation of the deferred item. A stop work order may be issued if unapproved work proceeds.
7. Additional fees may be charged for deferred items. Contact local jurisdictions for details.

Items which may be deferred include, but are not limited to, the following:

1. Acoustical ceiling suspension system	19. Plumbing system
2. Auxiliary power systems	20. Post-tensioned concrete structural members or panels.
3. Awnings	21. Pre-cast concrete structural members or panels
4. Bleachers	22. Prefabricated stair units to include steel, aluminum, or pre-cast concrete stairs.
5. Carports	23. Prefabricated wall panel
6. Curtain wall systems	24. Ore-stressed concrete structural members or panels
7. Electrical system	25. Raised floor systems
